

Brush Buddy Protective Pool Brush Cover User Manual

To make sure you have the best experience possible with your Brush Buddy, please keep the following points in mind:

- To put on the Brush Buddy, it is best to start at one end of the pool brush head and then stretch it to the other side of the brush head until the Brush Buddy is clinging firmly to both sides of the brush head.
- Once the Brush Buddy is held snugly on the brush head, you may need to pull gently on the sides of the Brush Buddy to straighten out or slide bristles back within the cover as necessary. It is important not to bend the bristles.
- To remove the Brush Buddy in preparation for brushing, simply stretch it off one end of the pool brush head and then gently remove the other end.

Make sure to cover your pool brush with the Brush Buddy after each use to get the most life out of your brush head!
